## EXPERIENCE

### FULL-STACK WEB DEVELOPER

CareerFoundry, Berlin, Germany

**Apr 2023 - Present**

#### *MyFlix App*

- Engineered an easy-to-use React application to give non-technical users access to data about movies stored in a MongoDB collection
- Managed state through Redux to make changes within the application more predictable and traceable

Tech Stack: React, Redux, JavaScript, Express, MongoDB, Heroku

#### *Meet App*

- Created a serverless Progressive Web Application to allow mobile and web users to search for meet-up information with or without being connected to the internet
- Established unit, integration, acceptance, and end-to-end tests to ensure the quality of React components
- Mapped meeting information into charts with a data visualisation library so users could gain insights and recognise new patterns

Tech Stack: API, AWS Lambda, React Testing Library, Recharts, CSS

### VARIOUS TECH RECRUITMENT & LEADERSHIP ROLES

Google, Zalando, RevenueCat

**Aug 2010 - Feb 2023**

I worked as a technical recruiter and later on as a lead of a team of 5 tech recruiters. Most of my recruitment career was focused on areas of AI and Software Engineering.

## EDUCATION

**Apr 2023 - Oct 2023**

### CAREER FOUNDRY, BERLIN, GERMANY

Full-Stack Web Development Program

**Sept 2006 - Jul 2010**

### ASTON UNIVERSITY, BIRMINGHAM, UK

BSc (Hons), Human Resource Management
